

Certificate

The specialists of

SC INTEGRAL CONSULTING R&D SRL

have successfully participated in August 2007 at a training given by

Selectron Systems AG, Lyss Switzerland

Regarding the usage of the engineering tools for the product line

Selecontrol[®] MAS-T
and the communication protocol CAN/CANopen

We Hereby confirm that after the training, with the help of the technical documentation and the Selectron's software, SC INTEGRAL CONSULTING R&D SRL specialists have got basic knowledge to program a Selectron MAS-T system. They are able to write basic applications for locomotive projects with the Selectron programming tools.
